

Style Guide

This is the style guide for Hestons homemade furniture. The furniture that is made is always handmade and nothing less. When adding or changing the website the fonts should all be using sans serif. The color of all the backgrounds and borders should be the color deep blue sky. All the links in the site should be the color white and when clicked on they should remain white. The heading sized should all be xx-large. There should always be a left column with links in it to take you to other areas of the website. The company logo should always be in the footer of the website and on that logo the legal information should be linked to it.
